

### *Literacy Narrative*

A Literacy Narrative is a personal story on your experiences with reading and/or writing. You are to write about an experience that helped shape your attitude in thinking. How has reading shaped or defined you? Why do you have that opinion on writing? Did a book change you? Did someone encourage you in reading or writing? Did something happen to make you think negatively or positively about either one? There are many questions to help guide you in this writing assignment.

Directions:

1. Using MLA Format, write a 4-5 page paper based on an experience that shaped your thinking about reading and/or writing.
2. Incorporate material/ideas from two readings from The Norton Field Guide readings we discussed in class.
3. MLA documentation is required.
4. You will share this paper with your classmates during peer editing.
5. You will be given time in Writing Workshop to compose your paper.

**Rough Draft is due September 15**  
**Final Draft is due September 22**
